FOR SALE BY

West Michigan Nurseries.

FOR THE FALL OF '93 AND SPRING OF '94.

NURSERYMEN and SEEDSMEN.

BENTON HARBOR, MICH.

In presenting herewith our Annual Price List of Nursery Stock we wish to say emphatically that our stock is unequalled in the United States, the stock herein offered is of the best quality in all respects and well worthy the attention of Fruit Growers and Planters. We keep all of our departments fully up to the times, adding every new variety of merit as soon as we are satisfied of its value.

Our collections are carefully examined every year and such things as seem to have little or no value are discarded. In this way we offer to our customers assortments which we can recommend with the greatest confidence.

The terms of payment, CASH, or satisfactory security on delivery or shipment of trees.

Remit by postal or express order or bank draft. Stock shipped C. O. D. when one-half cash is advanced.

PRICES, except noted, are for first-class stock. Rates on larger quantities than herein quoted will be given on application. Five furnished at the ten rate, fifty at 100, 500 at 1,000. Long, specified lists are subject to special prices.

PACKING is done in boxes or burlaps, with moss and straw, for which a moderate charge is made.

Shipping generally begins March 1 and October 1. To the South we ship from frost-proof cellars all winter. Benton Harbor is a great shipping point, thus affording competition in rates. The express companies here are the Adams and American. After delivery of stock at the railroad depot or express office our responsibility ceases.

HARDY ROSES—Outdoor Grown 2 years.

Special attention is called to our superb stock of two year old Roses. They are from 18 to 30 inches in height heavily rooted. The fact that this stock is wholly *grown out of doors*, should not be overlooked. Forcing roses under glass naturally weakens them, thereby causing great dissatisfaction among planters. List of leading varieties of Roses grown is given below; many other sorts can be furnished. Prices are as follows:

Agricultural and Garden Seeds.

We shall also undertake to furnish our customers with the highest grade of tested garden and agricultural seeds, believing that there is room for great improvement in the quality of such seed, even at less than the customary prices.

We shall deal largely in bulk seeds this year, though we can furnish them in small amounts when so desired. Write us stating what you desire, and the amount, and we will be pleased to quote you prices on same.

Horticultural Appliances.

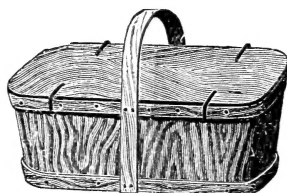

The past few years have witnessed a wonderful development in knowledge of improved methods of fighting insect enemies and diseases of fruit, and in the manufacture of spraying machines and other appliances for the proper application of remedies. A little care and attention now enables the fruit grower at small cost to protect and bring to maturity in good condition his crops of fruit.

We have established ourselves as manufacturers' agents for the latest improved Horticultural appliances, including spraying machinery, insecticides, fungicides, fruitgrowers' and gardeners' supplies, etc., and we will be pleased to quote you prices on application.
